

The 9th Göttingen Meeting of the German Neuroscience Society

March 23rd – 27th 2010, Göttingen, Germany

nan]i[on

Automated Patch clamp: from organelles to primary cells, from single channels to action potentials. Sophisticated and easy, who says you can't have it all?

The Port-a-Patch is the world's smallest patch clamp setup. It is easy to use, versatile and provides high quality recordings.

Come to **Nanion's workshop** on **Thursday, March 24, 2011 at 1pm in Hall 6** and learn how to use the World's smallest patch clamp rig in 1 hour!

Spaces are limited so book your place today by emailing sonja@nanion.de.

Sandwiches and drinks will be available whilst you patch clamp.

See you there!
