

Explanation of Abstract Numbers

There is one poster session on each day, i.e. on Wednesday, Thursday and Friday. The posters will hang all day long. Posters with poster numbers ending with an A are displayed on Wednesday, posters with a poster number ending with a B are displayed on Thursday and posters with a poster number ending with a C are displayed on Friday.

Each poster session (90 min) is divided into two parts (each 45 min): odd and even serial numbers. In the first part of the session posters with *odd* serial numbers will be discussed. In the second 45 min of the session posters with *even* serial numbers will be discussed. During this time slots it is mandatory that the author is present at the poster.

Example

T21-2B

T = poster to a poster topic

21 = the poster topic is No. 21, i.e. Motor Systems

2 = serial number (even number, i.e. 45 min of the second part of the session)

B = indicates the day, i.e. Thursday

This means: poster T21-2B is a poster belonging to the topic "Motor Systems" and is presented on Thursday, March 23, 2023, 10:15 -11:00 h in the poster area for Topic 21.
