

Breaking News' Best Paper Award 2027

For the fifth time, the NWG will award three prizes (500, 300, 200€) for student participants at the Göttingen Meeting 2027 meeting. The prizes will be given to three very young scientists who present the best talks in the Breaking News Symposium. The jury, composed of the session chair and representatives of the jNWG, selects the winners. A dedicated motto of the NWG, "Wir unterstützen den wissenschaftlichen Nachwuchs" ("We support young academics"), will thus be realized.

Criteria for selection are the novelty of the findings which are presented and their potential impact on future research and the quality of the presentation, both the speech and the slides.
